This prestigious award is presented by Newsweek and Statista Inc., the world-leading statistics portal and industry ranking provider. The awards list was announced on September 29th, 2021 and can currently be viewed on the Newsweek's website.

The Best Nursing Homes 2021 ranking lists the best nursing homes in the 25 states with the highest population size according to The United States Census Bureau. These states include Alabama, Arizona, California, Colorado, Florida, Georgia, Illinois, Indiana, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, Washington, and Wisconsin. The list evaluates the best nursing homes according to key performance data, peer recommendations, and the response to the COVID-19 pandemic.

Based on the results of the study, CommuniCare is ecstatic to recognize [Greenwood Healthcare Center](#) as one of Newsweek's Best Nursing Homes 2021. Greenwood was ranked number three in the state based on several factors including how the facility dealt with COVID-19. The facility has the most certified beds of the top three nursing homes. They accept Medicare, Medicaid, and provide resident council.

Greenwood's skilled nursing facility offers short-term recovery, physical therapy, rehabilitation services and long-term care focused on emotional and physical well-being. They strive to create a supportive environment and excellent experience for guests, residents, and their families. Staff works closely to provide senior care services that create a holistic environment where residents can focus on healing.

"We are proud of our staff and leadership's hard work throughout the pandemic, which no doubt contributed to Greenwood Healthcare Center being recognized as a premiere skilled nursing facility this year.
